Wherever you go in Tarangire National Park, you'll come across the park's famous **baobab trees** and elephants. These are the twin elements that give this park so much personality. There is, of course, so much more. We don't just mean the huge populations of wildebeest, giraffes, buffaloes, and zebras. Or the rugged landscape of rocky hills and rivers, swamps and savanna plains. You also have an excellent chance of seeing lions here – Tarangire is a real lion stronghold – and keep an eye out for leopards
